The orthography of the Worcester Dictionary is the used by most, if not all, authors of distinction in the country and England, and conforms to the general uses of ordinary writers and speakers.

Whatever prejudices may have existed previously, careful study of this volume will invariably be followed by a warm appreciation of its great merits, and a desire to add it to the well selected library, be it large or small it is a library in itself, and will remain an imperials ble record of the learning of its compiler.

Ayer's Sarsagarilla

A compound remedy, designed to be the most effectual Atterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROPULA AND SCROPULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCHES, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AP-BALGIA OR TIC DOULOUREUX, DEBLITY, DYS-PEPSIA AND INDICESTION, ERYSIPELAS, ROSE OR ST. ANTRONY'S FIRE, and indeed the whole class of complaints arising from Impurity or

class of complaints arising trem infurity of the Blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the time-ly expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spars themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is folt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sconer or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla his, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations,

for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete cradication from the system, the remedy should be judiciously taken according to directions on be judiciously taken according to dire

But shall our loyalty be less effective because we are Democrate? The prosperity of our Common-wealth and the bappiness of our people, during our whole existence as a nation, is the strongest evidence that the principles of this Government, established by our fathers, are founded in justice established by our fathers, are founded in justice and calculated to protect the rights of our whole people; and it is not for us to permit the destruction of that Government by the ruthless hand of the invader. And as the Democratic party ever has been the party of the country, leading its counsels in peace, and in war fighting its battles, whenever battles were to be fought, or yictories won, so will it now defend the glorious emblem of our sountry against the hand of treason, whether traitors are found in the one or the other extreme of political fanaticism. [Great applause.] The responsibility of the unnatural conflict in which we are engaged is not with the people of the loyal States. It has been forced upon us by designing men, who have been willing this fair fabric of Government which had been reared, should be made to totter and fall unless their own ambitious ends oould be attained. For the confidence you have reposed in me in assigning to me so distinguished a place in your proceedings, I tender you my most grateful thanks. Mr. E. A. Alger, of Lowell, then took the floor and said—

It is with the greatest pleasure that I meet my brother Democrate, representing every section of the Commonweilth, once again, as a Democrate and a member of the Democratic parise; I have loved and cherished Democratic principles from my youth. I have studied them in the writings of men most renowned in the history of our country; I have caught them as they fell from the lips of the most illustious statemens of our day; and I hear it stated to day, for the first time in my life, that it is unpatriotic to make a Democratic nomination in Magnachusette. [Applause.] Is it possible, Mr. President, that we live in the latter part of the 19th century, and in intelligent did Massachusetts, this boasts of her Concord, her Lexington and Bunker fifff! Are we such degenerate sous of our fathers as not to feel our hearts glow at the recollection of the glorious legacy broughted to as yothem?
